

DIGITAL WAYS OF WORKING

DRIVING INNOVATION THROUGH DESIGN THINKING

- **Instructor-Led Training (Workshop)**
- **Virtual Instructor-led Workshop (Web-based)**
- **Self-paced Course**

People who can solve thorny business problems for their customers are valuable assets to their organizations. This simulation-based course helps leaders develop their abilities to identify problems, generate ideas, design solutions and drive greater value to customers by thinking beyond the boundaries of tried and tested possibilities.

Modern organization needs

Successful organizations are those that are ready to face the challenges of the future even as they tackle the problems of the present. Such organizations thrive on enabling and encouraging their people to think creatively using the design thinking methodology which gives them both structure and freedom.

Key Takeaways

- Describe the fundamentals of design thinking
- Solve complex challenges through the process of structured design thinking
